## SOLUTIONS FOR THE WORLDWIDE PUMPING INDUSTRY

*Modern Pumping Today* is a publication with solution-based content designed to keep the industrial pump, fluid flow, and rotating equipment markets engaged and informed. Our articles address key issues for the broad range of pump-reliant industries, such as water and wastewater, to specialty concerns, such as seals and control systems. Our publication targets key decision makers at all levels in the industry, including engineers, maintenance personnel, operators, municipal and government officials, contractors, and corporate managers. For advertisers, we offer a competitive rate in a publication designed for the very people you strive to influence.

# PRINT & DIGITAL OPPORTUNITIES

## Why MPT Print?

Engineering, maintenance, and operations professionals have told *Modern Pumping Today* they enjoy information in print. Studies show print advertising is retained longer than any other medium, that's why many choose to advertise in *Modern Pumping Today's* print edition. Printed materials capture the attention of the reader. An audience that is physically holding a magazine tends to be more focused on the content inside, granting a reader's full attention. When you advertise in *Modern Pumping Today*, your print ad also appears in our digital edition.

## Why MPT Digital?

Although our digital edition mirrors the printed version of *Modern Pumping Today*, it also offers several advantages. The digital edition allows the reader direct access to your website, videos, social media, and email through the click of a button. This makes it easy to send a potential client where you want while their interest is at its peak. Company and product videos can be viewed two ways: embedded within the digital edition directly, or through a pop-out button located within your ad. All our digital editions are archived on our website for easy reference to ensure long-term exposure to our engaged audience.

# SPECIAL OPPORTUNITIES

## Featured Product

Each month, one product from the entire industrial pump industry is promoted in our print and digital editions. This Featured Product is prominently placed on the home page of our website and included in our monthly eNewsletter. Be sure to send us information on your product(s) for possible inclusion in the Products Section of *Modern Pumping Today*.

## Special Issues

*Modern Pumping Today* produces two special issues a year: the "Products and Services Guide" in April and the "Buyers Guide" in November. The goal of the Products and Services Guide is to act as a resource for industry professionals looking for product information and service options for their business. The November issue highlights manufacturers and includes a company directory categorized to help our readers find exactly what they need. Both issues allow an elite group of manufacturers to describe their company and/or product in an editorial piece accompanied by their ad.

## Trade Show Promos

Take advantage of our special promotional sections leading up to key industry trade shows by featuring your company's presence. Prior to the most important trade shows for our industry, MPT will highlight the top exhibits we suggest pump industry professionals make a point to see through this special promotional section. Contact your media consultant for details and how to qualify.

## Cover Ear

Imagine your company name and logo on the cover of an industry-leading magazine. That's possible with *Modern Pumping Today*. Magazines are often placed on desks, racks, and shelves with the cover facing up, allowing passersby to see the cover as well as the intended recipient. A cover is seen by more eyes than any other page of a publication, which ensures any image or wording placed on a cover is most likely to be seen. Take advantage of this cover-placement branding opportunity.

## MPT's Podcast: The Efficiency Point

The Efficiency Point, a podcast from *Modern Pumping Today* magazine, delivers relevant content for industrial pump professionals, wherever they are, on demand. Each episode of the Efficiency Point covers the wide breadth of the worldwide pumping industry with breaking news, insightful interviews, and sneak peeks at emerging technology. Sponsored content opportunities are available, from custom ad reads to interview segments, reaching your potential customers in a whole new way.
